# Installation Manual Double DIN Kit 291320-10-PIO-K

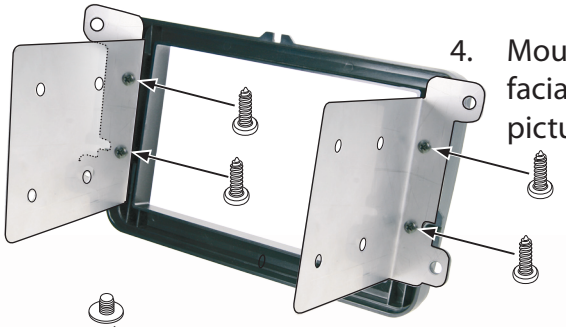
**VW Golf V only:**

Pull up the aircone unit (fixed by clips). Remove two Torx (TX20) screws (see arrows) which become visible.

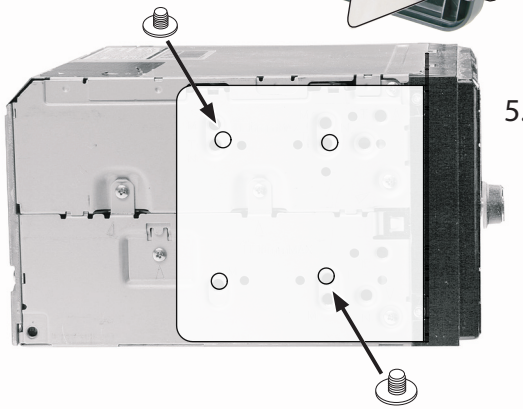
1. Remove the original trim frame, surrounding the radio (fixed by clips).

2. Remove the 4 Torx (TX20) screws *(These screws will be used again later).*

   Remove the OEM head unit.



4. Mount both metal brackets at the facia plate as shown in the sample picture on the left.



5. Push the Pioneer Double DIN head unit into the facia plate and fix the sides of the head unit with 2 screws on each side.

6. Connect all wires and fix the Pioneer Double DIN head unit with the original Torx (TX20) screws.

7. Reinstall everything in reverse order to finish installation.

*All installation work must be performed by a qualified professional installer only.*
*The manufacturer / dealer is not liable for any kind of incidential or indirect damages.*
